In commenting on a recent debate held in Springfield, Mass., which was attended by 4,500 persons, while thousands were turned away, The Springfield Homestead says:

"The representatives of these two opposing forces faced each other on the platform for nearly four hours in one of the most remarkable series of public utterances that this city has beheld for many years, in which the speakers and their beliefs were held up to derision and public ridicule."

18 POUNDS OF BLOOD
Is the average quantity in a healthy adult, but it is the quality of the blood that determines our strength to resist sickness. With weak blood we find cold hands and chilly feet; in children an aversion to study, and in adults rheumatic tendencies.

In changing seasons get abundant fresh air and take a spoonful of Scott's Emulsion after meals, because Scott's Emulsion is a rich blood-food that will increase both quantity and quality of the blood while it warms the body and helps carry off the impurities.

When multitudes of people are today taking Scott's Emulsion to avert winter sickness, and are giving it to their children, it is careless to neglect its benefits. Look out for substitutes.

CITY OF ALEPPO - OPERATIONS IN ASIA MINOR

The capture by the Russians of Erzurum (1), at the headwaters of the Euphrates, will practically open the whole of Armenia to Grand Duke Nicholas' army, whose line extends from the coast to southward of Lake Van. In northwest Persia is a second Russian force, with its base at Tabriz (2), while a third is fighting Persians and Turks in the region of Kermanshah (3). The British force on the Tigris in Mesopotamia, which originally forced to retire, is besieged in part at Kut-el-mara (4), while a relief force of a few miles below is held up by floods and a strong force of Turks. The fall of Erzurum is expected to relieve the pressure on the British front in Mesopotamia by forcing Turkey to draw off troops for re-enforcements to meet the Russian advance and to postpone indefinitely the proposed advance on the Egyptian front. The map in the picture covers the entire field of operations in this part of the world. The view shows the city of Aleppo.
